

Certificate of Completion

Course duration: 25 hours

The recipient of this certificate has successfully completed all modules of the 'EmpowerED educators: becoming pedagogical mentors for EdTech co-design' course on EUN Academy. The recipient has passed all quizzes on the topics of the modules, engaged in discussions about the module questions, written a pedagogical mentor reflective portfolio incorporating idea from the course, and reviewed the work of 3 other course participants.

Learning objectives:

- Participants will assess tasks and opportunities within EdTech, identifying strengths and interests through self-assessment and peer discussions.
- Through examples and case studies, learners will learn how to apply constructivist, behaviourist, and cognitive theories to develop practical EdTech solutions.
- Learners will utilise design thinking to develop user-centred EdTech solutions, using data analysis to ensure alignment with educational needs and ethical standards.
- Participants will recognise skills and strategies to expand their impact and advance their pedagogical practices, through the creation of educational materials, and the development of Communities of Practice.
- By the end of the course, participants will have the skills and competencies to formulate a pedagogical mentor Reflective Portfolio. They will also engage in peer assessment activities to provide constructive feedback on their peers' action plans, fostering continuous improvement in professional development.
